

MAGNETOSHAPE® - hand demonstrator

Technical data

MAGNETOSHAPE® - hand demonstrator

Maximum stroke	~0.7 mm
Thermal operating range	0 °C - 45 °C (MAGNETOSHAPE® material)
MAGNETOSHAPE® element size	2 × 3 × 15 mm

Applications

- Demonstration of magnetic shape-memory actuator technology
- R&D studies and prototype development

Features/characteristics

- Battery-free hand demonstrator for MSM effect
- Manageable pocket size
- Magnetic field generation with permanent solenoids
- Dial gauge for direct display of strain
