

## MAGNETOSHAPE® - miniature gripper

### Technical Data

#### MAGNETOSHAPE® - miniature gripper

Size	43 x 27 x 27 mm <sup>3</sup>
Opening stroke	1 mm pro gripper jaw
Gripping force	1 N
Opening/Closing time	3 ms
Frequency	Up to 1 Hz at 30 °C

### Applications

- Micro assembly
- Watchmaking
- Electronic component manufacturing
- Optics assembly
- Laboratory automation

### Features/characteristics

- Currentless holding function
- Very fast switching times
- Force sensitive gripping
- Compact design

### Customer Benefits

- Increase in cycle times
- Safe operation in case of emergency stop/power failure
- Electrical adjustability of gripping force
